PROFESSIONAL SUMMARY

UI/UX and Product Designer with hands-on experience designing and shipping real-world digital products, websites, brand systems, and responsive interfaces for startup, nonprofit, and freelance clients across India and the US. Skilled in user flows, information architecture, wireframing, prototyping, interaction design, visual design, design systems, and responsive design. Experienced in using Figma and AI-assisted development workflows to translate product and business requirements into polished, functional digital experiences.

CORE SKILLS

UX/UI Design: User Flows, Information Architecture, Wireframing, Prototyping, Interaction Design, Responsive Design, Accessibility, Visual Hierarchy, Material Design

Product Design: Product Thinking, Design Systems, Design Iteration, Stakeholder and Cross-Functional Collaboration

Visual & Brand Design: Visual Design, Brand Identity, Branding, Typography, Color Systems, Layout Design, Product Mockups, Social Media Design, Visual Storytelling

AI & Development: Generative AI, Prompt Engineering, AI-Assisted Development, AI Product Design, Frontend Implementation, HTML, CSS, JavaScript

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Canva, Claude

EXPERIENCE

Design Intern

Chiplabs Solution Private Limited | Integrated marketing company, India + US | 02/2026 - Present | chiplabs.tech

- Design end-to-end digital experiences for startup and client projects, translating business requirements into user flows, responsive interfaces, visual systems, and production-ready frontends.
- Use Figma alongside AI-assisted development workflows with Claude and prompt engineering to accelerate design-to-development iteration.
- Collaborate with founders and cross-functional teams to turn business goals into UI concepts, brand systems, and shipped products.

Freelance Graphic Designer

Independent Clients | Remote | 2025 - Present

- Deliver branding, visual design, product mockups, social creatives, and promotional assets for client projects across multiple industries, owning each project from concept through final delivery.

SELECTED PROJECTS

Maavie Rituals - Women's Wellness Platform and Brand

Chiplabs client project | Product and Web Design, Brand System, Frontend | maavie-web.vercel.app

- Designed and shipped the end-to-end web experience for a science-led women's hormonal health brand, including an interactive symptom quiz, an explorer mapping one hormone's effects across six body systems, expert profiles, and an article hub.
- Defined the brand identity and design system and built the responsive frontend using AI-assisted development workflows, then extended the system into campaigns, social creatives, Reels, and event promotion.

ISKCON Austin - Temple Website and Donation Experience

Chiplabs client project (US nonprofit) | UX/UI, Mobile UX, Payment Integration | iskcon-austin-wood.vercel.app

- Designed and built a multi-section website for a US temple community across two physical locations, covering visit planning, weekly schedules, festival calendar, virtual tour, and media in a clear information architecture for a broad non-technical audience.
- Designed the donation conversion flow end to end and integrated Zeffy for payments, including progress tracking for a \$4.5M capital campaign and a QR-code experience that moves an on-premise visitor from a physical scan to a completed donation on mobile.

Social Media App and Food Delivery App - UI/UX Concepts

Personal projects | Figma, Wireframing, Prototyping | 2025 - 2026

- Designed a social media app (onboarding, feed, profile, notifications) with mapped user flows and interaction states applying Material Design and WCAG guidelines, and a food delivery app built around a low-friction checkout flow with wireframes, high-fidelity UI, and a design system of color, type scale, and icons.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering (Artificial Intelligence)

Bhilai Institute of Technology, Durg | Chhattisgarh, India | 2022 - 2026
